

Edgent Software Price List

Edgent Limited Liability Company, 311 Rimrock Ct., Bastrop, Texas 78602. PA SAP Vendor 571572. FEIN 42-1856921.

This list covers software manufactured by Edgent (VForce360 Platform, VForce Lakehouse, VForce Flow, VForce Forensics, Askura, and Edgent Learn) and delivered for installation on infrastructure the purchaser controls (on-premise, purchaser's cloud account, or air-gapped). Each subscription runs twelve months from delivery of the installation package and includes all updates, defect corrections, and Standard Support during the term. Prices are in United States dollars and exclude taxes.

Products and editions

Environment means one production environment on the purchaser's infrastructure; non-production environments are priced under Options.

Platform products

SKU	Product and edition	Unit	Annual price
EDG-V360-PIL-1Y	VForce360 Platform, Pilot edition	per environment	48,000
EDG-V360-STD-1Y	VForce360 Platform, Standard edition	per environment	120,000
EDG-V360-ENT-1Y	VForce360 Platform, Enterprise edition	per environment	240,000
EDG-LAKE-PIL-1Y	VForce Lakehouse, Pilot edition	per environment	30,000
EDG-LAKE-STD-1Y	VForce Lakehouse, Standard edition	per environment	72,000
EDG-LAKE-ENT-1Y	VForce Lakehouse, Enterprise edition	per environment	150,000
EDG-FLOW-PIL-1Y	VForce Flow, Pilot edition	per environment	12,000
EDG-FLOW-STD-1Y	VForce Flow, Standard edition	per environment	36,000
EDG-FLOW-ENT-1Y	VForce Flow, Enterprise edition	per environment	90,000
EDG-FOR-PIL-1Y	VForce Forensics, Pilot edition	per environment	36,000
EDG-FOR-STD-1Y	VForce Forensics, Standard edition	per environment	96,000
EDG-FOR-ENT-1Y	VForce Forensics, Enterprise edition	per environment	210,000

Survey, learning, and training products

SKU	Product and edition	Unit	Annual price
EDG-ASK-PIL-1Y	Askura, Pilot edition	per environment	6,000
EDG-ASK-STD-1Y	Askura, Standard edition	per environment	18,000
EDG-ASK-ENT-1Y	Askura, Enterprise edition	per environment	48,000
EDG-LRN-PIL-1Y	Edgent Learn, Pilot edition	per environment	9,000
EDG-LRN-STD-1Y	Edgent Learn, Standard edition	per environment	24,000
EDG-LRN-ENT-1Y	Edgent Learn, Enterprise edition	per environment	60,000
EDG-FOR-TRN-1Y	VForce Forensics Investigator Training, per learner	per learner (10 minimum)	480
EDG-FOR-TRN-S	VForce Forensics Investigator Training, site license	per environment	9,600

Options

SKU	Option	Unit	Price
EDG-NP	Non-production environment (test, staging, training) for any product above	per environment, per year	25 percent of the matching production subscription
EDG-PREM	Premium Support upgrade for any product above	per production environment, per year	20 percent of the matching production subscription
EDG-INST	Remote installation assistance, one engineer, eight hours	per block	2,400
EDG-3YR	Three-year prepaid term for any subscription above	per subscription	10 percent below three times the annual price

What each product is

VForce360 Platform. The governed data, AI, and orchestration platform for regulated environments. One installation delivers the Lakehouse Core (Apache Iceberg tables, serverless SQL warehouse, governed catalog with lineage), Governance (per-tenant isolation, relationship-based access control on every read, tamper-evident audit ledger), Document Intelligence (OCR, classification, confidence scoring, human-review routing, keyword search), Flow (low-code pipelines and event-driven orchestration), and the Mnemo assistant.

VForce Lakehouse. The Lakehouse Core, Governance, and Document Intelligence components of the platform, without Flow, for purchasers who already run a workflow engine.

VForce Flow. The low-code workflow orchestration platform on a durable execution backend, with typed connectors, manual, webhook, schedule, and event triggers, human tasks, retry and error policies, and a visual designer, for purchasers who already run a data platform.

Askura. Conversational intake and surveys that return structured results, with encrypted flow-through delivery of responses to the purchaser's own systems and no retained response store.

VForce Forensics. Fraud, waste, and abuse detection and case management on the governed lakehouse: a registered source catalog per sector slice (public healthcare, private payer, criminal justice, and defense health records) with connectors that land claims and public records through Flow pipelines on a schedule, quarantine and quality scoring on every landing, an authored rules library with versioned activation, detector runs that produce ranked leads, lead to case to disposition workflow with challenge-based rulings, evidence with chain of custody, network analysis, referral packaging, and an audit chain that survives rollouts.

VForce Forensics Investigator Training. The nine-lesson product course for investigators, reviewers, and approvers, delivered and recorded in Edgent Learn: orientation, triage queue, case workspace, network analysis, entity dossier, rules governance, claims analysis, analytics and reporting, and a workflow simulation, each lesson deep-linked to the screen it teaches. Sold per learner or as a site license alongside a Forensics subscription, and requires an Edgent Learn environment or the hosted Learn service.

Edgent Learn. Learning management with SCORM and H5P course delivery, shared course content, per-tenant learner records, and single sign-on.

Edition limits

Product	Pilot	Standard	Enterprise
VForce360 Platform and VForce Lakehouse	25 named users, 2 TB governed data	100 named users, 20 TB governed data	unlimited users and data within one environment
VForce Flow	25 named users, 10 active flows	100 named users, 100 active flows	unlimited within one environment
VForce Forensics	10 named investigators, 2 registered sources, one sector slice	50 named investigators, 20 registered sources, two slices	unlimited within one environment, all slices
Askura	10 active surveys, 5,000 responses a year	50 active surveys, 50,000 responses a year	unlimited within one environment
Edgent Learn	500 active learners	2,500 active learners	unlimited within one environment

An environment is one installation serving one organization. A purchaser that exceeds an edition limit moves to the next edition at the prorated difference for the remainder of the term.

Delivery

Each product ships as a Kubernetes Helm chart and as a Docker Compose bundle with an install script, with a signed air-gap archive available on request. Delivery is electronic within five business days of order acceptance.

Support included

Standard Support is included in every subscription: telephone and email support Monday through Friday, 8:00 AM to 6:00 PM Central, excluding federal holidays, with a next-business-day response for installation and operating questions and a four-business-hour response for a production outage. Premium Support extends the hours to 7:00 AM to 9:00 PM Central, adds Saturday coverage, and shortens the outage response to one hour. The full statement of support and maintenance is a separate document.
