

Governed Data Platforms · AI-Augmented Engineering · Legacy Modernization

We ship working systems, not written claims. Every capability below is a live, inspectable URL.

CORE CAPABILITIES

Governed Data & AI

Medallion lakehouse on Apache Iceberg. Fine-grained ReBAC via OpenFGA, tamper-evident audit chain, N-size suppression. Governed SQL over PostgreSQL wire + HiveServer2, so Power BI, Tableau, Excel, dbt connect with drivers agencies already own.

Platform & DevSecOps

Kubernetes + Envoy + mTLS on FedRAMP-authorized substrate (Azure Gov, AWS GovCloud). CI/CD with SAST, DAST, SBOM, Cosign signing, blue/green deploy, digest-pinned. Section 508 / WCAG 2.1 AA enforced as a blocking merge gate.

Legacy Modernization

COBOL, JCL, CICS, RPG/AS400, PL/SQL, legacy Java EE. Ingest, business-rule extraction, and AI-augmented port to a modern hexagonal target with preserved semantics. VSAM and sequential-file migration at multi-million-record scale.

LIVE PRODUCTION SYSTEMS (ALL INSPECTABLE NOW)

ORCHESTRATION

VForce Flow

acme.vforce360.ai/flows

Low-code / no-code workflow engine on Temporal. Manual, HTTP, schedule, event triggers with human-task gates.

SIMULATION

RS-Engine

rs-engine.quantumflight.ai/scenarios

Discrete-event readiness simulation across six mission-essential functions. Terraform-provisioned, FISMA Moderate-aligned.

SURVEY SUITE

Askura

askura.ai

Multi-tenant survey and stakeholder admin product suite. Per-tenant subdomains, OIDC/oauth2, wildcard TLS.

GOVERNED DATA

VForce Lakehouse

vforce360.ai

Governed data workspace: catalog, lineage, quality rules, chained compliance ledger, governed SQL, dashboards.

LEARNING PLATFORM

Edgent Learn

acme.lms.vforce360.ai

Multi-tenant learning delivery with SCORM and H5P content and an xAPI Learning Record Store in production.

ARCHIVES & DOCUMENT AI

A4A

quantumflight.ai

Archive digitization in production: microfilm and microfiche ingest, tiled OCR with a human review gate, full-text and semantic search, retention and legal hold.

ANALYTICS

Public Transparency Dashboard

rcsd-demo.vforce360.ai

Governed gold-table reads through a tenant-scoped token. N-size suppression, tamper-evident audit-integrity panel.

PUBLIC DEMO

Platform Demo, No Login

demo.lakehouse.vforce360.ai

Seeded pipelines with live run history, catalog, documents, governed SQL.
